

# BENTON COUNTY HEALTH DEPARTMENT

## OFFICIAL STOP ORDER

Order Dated October 27, 2022

Permit None

Name Eagle Bay POA

Address 28451 Northwoods Drive.

Lincoln, MO 65338

Section 31 Township 41N Range 20W

-----  
You are hereby notified that all work on the wastewater treatment system covered by Permit Number None, at the above-mentioned location is to be immediately stopped (Section 11 of Ordinance 1991-1 for reason or reasons listed below:

- No permit obtained for installation of the septic system  
(Section 5.01)
- Substandard materials used  
(Section 11-11.01A)
- X Determined as a health hazard by the Health Official  
(Section 3.05)
- Construction does not meet the intent or provision of this issued permit  
(Section 7-7.01)
- Installation does not meet the intent or provision of this issued permit  
(Section 7-7.01)
- Modification does not meet the intent or provision of this issued permit  
(Section 7-7.01)

**Comment: On April 6 2022 I completed a site visit to the "Dump Station" located at PID: 099031001003059000. The inspection revealed that power had recently been cut from the pole to the aerator and effluent was surface discharging proximal to the tank outlet. The nearby ground surface was also spongy and saturated only in that area. This stop order may be lifted following the ATU working status be professionally addressed along with the field downstream that will most likely require permitting to bring to working order. It is strongly suggested that DNR be included in the progress of OWTS involving dumping and treatment. If calculations for sizing the dump station exceed 3000 gallons per day then DNR has jurisdiction over the system.**

Failure to heed this STOP ORDER will be in violation of the Wastewater Treatment System Ordinance 1991-1. This order shall become final unless a request for a hearing as provided in Section 19 of this Ordinance is made within ten (10) working days from the date of service of the order.

By Order of the County Health Official

  
EPHS/Authorized Health Representative
